

ISO 28000 Security Certification :

DP World Chennai has achieved ISO 28000:2007 certification in Supply Chain Management Systems, only the third container terminal in India to earn this independently audited security standard.

The ISO 28000 standard has set in place mechanisms and processes to address security vulnerabilities at strategic and operational levels, as well as establish preventive action plans. The security measure is in addition to International Ship and Port Facility Security (ISPS) mandated systems in operation at the major ports where the terminals are situated.
