

ON LINE FACILITY FOR FILING VIA AND IAL

We have implemented an online facility for the Vessel Operators to upload Vessel VIA & IAL through our E Form 13 site from 3rd March 2011. The software provides a mechanism to give feedback to the Vessel Operator in case of any errors in IAL being uploaded & ensure that the IAL uploaded by the VOA is error free. Internally, the system provides a means to compare IGM with IAL and also generate different reports. We have also given option for Shipping Lines (COA's) to Check IAL in COA's login.
